**EMENTA:** Editado pelo Legislativo

### **A Câmara Municipal manifesta:**

If you want a powerful, uplifting read about how to turn a struggling education system around — despite the drag of “well-meaning” but harmful inertia — pick up Nick Gibb and Robert Peal’s *Reforming Lessons: Why English Schools Have Improved Since 2010 and How This Was Achieved*. Fifteen years ago, England’s schools were in a sorry state. Students were underperforming badly compared with their peers in Singapore and Shanghai, and the air was thick with excuses. The idea of lifting an entire country’s educational performance felt like wishful thinking. But during his ten years as Schools Minister, Nick Gibb — along with like-minded colleagues — did something remarkable: they pushed England sharply upward in international measures like PIRLS and PISA.
